Re: Docket Control # E-01575A-09-0453

A Motion to Demand Responses to Data Request Set One Sent on November 2, 2009

Dear Judge Rodda:

As an intervenor in the above matter, I have patiently waited for a response from Sulphur Spring Valley Electric Cooperative (SSVEC) to my Data Request Set One, sent November 2, 2009. I had asked that SSVEC respond to my request within ten business days or to notify me within that period if they could not comply. On the 20th of November they filed objections to my request, but stated that I would receive answers to the questions that they did not object to. On December 11, 2009 a Procedural Order was issued stating that SSVEC shall attempt to respond to my data requests within ten business days or provide an estimate of when the information will be available. The deadline had come and gone once again and I have received nothing, not even a letter from SSVEC.

This blatant disregard of a Procedural Order and an information request from one of their cooperative members is the same treatment that many in my community have received when they asked questions. During the December 11th Procedural Conference, SSVEC claimed my data request is a burden to them, yet they found the time and resources to mail out on December 14th a six page letter to cooperative members disputing the facts and stating that they had done all the necessary data gathering. They continue to refuse to share the information with cooperative member/owners. How did they have time to write such a lengthy letter when they have had my data request since the first week of November?

Please consider a Motion to Demand Responses to Data Request One sent November 2, 2009. Thank you for your attention in this matter.

Sincerely,

Sue Downing
